Allowable Subject Matter

Reasons of Allowance:

3. Claims 1-10, 12-27 and 29-35 (renumbered as 1-33) are allowed.

The following is an examiner's statement of reasons of allowance:

The reasons of allowance for claims 1, 22 and 31 should be evident from the applicant's arguments presented in pages 2-5 of the remarks/amendment filed on December 29, 2005. The instant invention and the closest prior arts Berlad et al., U.S. Patent 5,293,195 and Rogers et al., U.S. Patent No. 4,675,526, are directed to producing tomographic images by using iterative algorithms on the nuclear events. The instant invention recites producing tomographic images using unbinned nuclear events or nuclear events whose weights are distributed separately, and both the prior arts Berlad and Rogers do not teach producing or reconstructing tomographic images from unbinned events and therefore do not teach the respective limitations which include reconstructing images using unbinned events as recited in the claims 1, 22, and 31. Reasons of allowance for claim 10 should be evident from page 12 of the previous office action mailed on August 31, 2005.

Therefore claims 1, 10, 22 and 31 are allowed. All other claims depending on claims 1, 10, 22 and 31 are allowed at least by dependency on claims 1, 10, 22 and 31.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
